MINETT & CO.,

Copal Varnish Manufacturers,

No. 60 PEARL-ST., NEW-YORK.

The great difficulty in Copal Varnishes, hitherto, has been, that the manufacturer has had but one or two sorts of Varnish for the purposes of the Artist, the Coach Painter and the Decorator. No painter, unless he can command time, and choice of work, can possibly give to his labor an appearance of finish in the best style, or insure permanency, without a varnish suited to the job in hand.

To Coach Painters, House Decorators, &c,

We have an EXTRA COACH BODY VARNISH, which we strongly recommend no painter (either coach or house) to be without, when he has a job which he wants to stand the test of time and weather. It will not, however, be suitable for all purposes, or for a job in a great hurry. It will stand unchanged the hottest or the coldest climate—as the southern part of our own States, the East or West Indies, Russia or the Canadas. It may be used also for fancy signs, expensive facias, and will stand sun, rain and exposure to the severest weather. Cistern 66.

For Light Colors

Is recommended our Light Body Varnish, where 66 is not sufficiently colorless. The Varnish when ordered, to prevent mistakes, should be called the "LIGHT BODY VARNISH," either this or 66 will be found to cover better, and not less durable than the best English Coach Varnishes.

White Varnish.

Mastic Varnish is unsuitable for any work requiring durability. It is therefore very improperly used in house painting, in steamboats, or on walls. It is also inapplicable to articles of white furniture, but is adapted to pictures and delicate work, on which a frequent renewal of the varnish may be required.

Mastic Varnish may be rubbed off surfaces like flour, and so easily, as to enable the artist to clean a picture, and free it entirely from any number of old coatings, any number of times, without removing or injuring the most delicate ground-work or hair-stroke of the painting. We have a pure Mastic Varnish that will not bloom.

White Outside Copal, and Coach-Picture Varnish.

The light straw color, which at first appears to belong to this varnish, ought not to deter the painter from its use, for, as the job hardens, the color dries out, and the longer it has been done, the whiter and more transparent it becomes. The reverse of all this may be expected, if, as is too often the case, a soft, white, or milky varnish be used for the transitory effect of looking well at the moment of finish. In a short time the varnish loses its gloss, cracks and rubs off.

Of White Inside Copal Varnish

We have several sorts:—A quick drying, solid polishing White Varnish, for white furniture, picture frames and small surfaces; a Varnish adapted for inside paint work, either large or small surface. This latter will bear rubbing and polishing, and allow the painter as much time as he may require to work and lead off. We have also a delicate flowing White Varnish, not intended for polishing or rough usage. See our list.

To Japanners.

We call attention to a Varnish made for the most delicate colors and fancy articles, will stand great heat without injury, and presents a surface for wear like metal. The slowest and most durable, is that in Cistern 89. The quick drying, yet durable, is from Cistern 69, the latter has the least color.

Our Varnishes will always be **IN A PURE STATE** for the consumer, as they are kept in cisterns containing from 280 to 600 gallons each, and ranging in number from No. 1 to 97, in three separate places of storage. From this statement, persons favoring us with country orders, will see the propriety of stating the purposes for which the Varnish is required, that they may be supplied with the kind best adapted to their use.

For our fine old stock of CABINET MAKERS' VARNISHES, Japanners', House Painters' Outside, Brown and Black Japan, Gold Size, &c. See our list.

PRALL, LEWIS, AND CO., PUBLISHERS,

76 NASSAU STREET, NEW YORK,

Issue, among other works, the

AMERICAN ADVERTISER,

Established in 1849.

TWO EDITIONS PUBLISHED ANNUALLY, AND EXTRA ISSUES WHEN REQUIRED.

PREVIOUSLY to the publication of this work, there had long been wanting a work of character as a vehicle to merchants and manufacturers of more permanent announcements than are to be met with in the columns of daily newspapers, as well as a reference-work for purchasers. To supply this vacuum was the design of the American Advertiser. A most natural and reasonable prejudice existed against advertising works, from the fact that many such works had sprung into existence for a season, and, after deceiving the public, disappeared. It was, therefore, perceived that some plan must be devised to elevate the character of such a work, and ensure its wide circulation in the community. The method adopted was the regular publication of the American Advertiser in connection with some standard statistical work, or some publication of general mercantile interest. The publishers have entered into arrangements by which they have bound and will continue to bind each edition of the American Advertiser with

NEW YORK: PAST, PRESENT, AND FUTURE;

BY E. PORTER BELDEN, M.A.,

A work of intrinsic and acknowledged value, the materials of which were derived from official sources, principally from the records and documents of the city, which were placed by public act of the Common Council at the disposal of the author. The two works bound together are not only circulated by sale, but

HOTELS, STEAMBOATS, RAILROAD DEPOTS, POST-OFFICES, MERCHANTS' EXCHANGES,
and other Public Places throughout the Union,

are gratuitously supplied with copies. A cheap copy will likewise be hereafter suspended in the business-place of every person advertising in the work whose bill is promptly paid. This undertaking has met, during five editions, with the most cordial approval of the mercantile community, and the AMERICAN ADVERTISER has become a

COMPLETE REFERENCE-BOOK FOR PURCHASERS,

Containing the Cards of Merchants and Manufacturers in every line of Business.

A most important feature is the admirable Classification and Indices by which a purchaser can find in an instant any article of which he is in search.

TERMS.

For an insertion in a single edition, including all the extra issues for six months, payable on the presentation of proof-sheet of advertisement for correction:

⅛ page - - -	$2,50	½ page - - -	$10,00	1 page - - -	$20,00
¼ " - - -	5,00	⅝ " - - -	12,50	2 pages - - -	35,00
⅜ " - - -	7,50	¾ " - - -	15,00	3 " - - -	45,00

If not paid on presentation of proof-sheet, an additional charge of 50 per cent. is made.

The *minimum* number of each edition is 1000 copies, which the publishers obligate themselves to issue, if only for gratuitous distribution; the present circulation, however, is 2000 or 3000 copies, and constantly increasing. These are prepared in five different styles, suited to every class of the community, from a cheap pamphlet for the shop to an elegant book, embellished with the most costly steel-plates, for the parlor table. The advertisements are inserted in every style, and the advertiser is as much benefited as though he announced his business in five different mediums, with the extra advantage of bringing his announcements before certain classes which would otherwise never come in contact with an advertising work.

☞ For prices of the works, and list of places where they are gratuitously distributed, see next page.

PACIFIC MAIL STEAMSHIP CO.

THE ONLY THROUGH LINE FOR

CALIFORNIA AND OREGON.

The public are informed that under the new arrangements of this Company, Steamers inspected and approved by the Navy Department, and carrying the United States Mails, will continue to leave Panama and San Francisco, on the 1st and 15th days of each month, unless detained by unavoidable accident, and will touch at Acapulco, San Diego, and Monterey. The following Steam Packets, belonging to the Pacific mail Steamship Company, are now in the Pacific, one of which will be always in port at each end of the route.

Oregon, - -	1099 tons.	Republic, - -	1200 tons.
Panama, - -	1087 "	Carolina, - -	600 "
California, -	1050 "	Columbus, - -	600 "
Tennessee, - -	1300 "	Isthmus, - -	—— "
Northerner, -	1200 "	Unicorn, - -	600 "
Columbia, - -	800 "	Fremont, - -	600 "
Antelope, - -	—— "		

The new Steamship Columbia will ply between San Francisco and ports in Oregon, awaiting at the former port the arrival of the mails and passengers from Panama, and returning without delay with the mails and passengers for the Steamer from San Francisco.

A regular line of Propellers will be kept up for the transportation of freight and transient passengers between Panama and San Francisco.

The well-known Steamship SARAH SANDS, of 1500 tons burthen, now under charter to the Company, and peculiarly commodious in her cabin arrangements, will be kept running as an extra family boat. THE

STREET DIRECTORY

OF

THE CITY OF NEW YORK.

(CORRECTED JUNE 1, 1851.)

Entered according to Act of Congress, in the year 1851, by DOGGETT & RODE, in the Clerk's Office of the District Court of the United States for the Southern District of New York.

EXPLANATION.

If you wish to find the location of any dwelling house or store,—for instance, No. 80 Allen street, on consulting the Street Directory, you will observe that 66 Allen is on the right-hand of that street and on the corner of Grand, and 86 Allen on the right-hand corner of Broome: hence the desired number, 80 Allen, will be on the right-hand side of Allen street, between Grand and Broome.

Or suppose that you are going up Broadway and wish to take a cross street so as to call at 128 Bowery; on examination (see Bowery) of the corner numbers in the Bowery, you will observe that 129 Bowery is on the corner of Bowery and Grand;—hence, by passing from Broadway through *Grand street* to the Bowery, you are opposite to the desired number, (128.)

NOTE.—Eleventh street is divided into *East* and *West*, as follows:—*East* Eleventh commences at Avenue 4th—*West* Eleventh, at Broadway. The streets above Twelfth street are divided by Avenue 5th, into East and West—as *East* Thirteenth, *West* Thirteenth—and the streets located as above described will be found, therefore, in this work under *East* and *West*. Some have supposed that *Broadway divided these streets into East and West*—but it is a mistake.

BILLIARDS WITHOUT A MASTER,

BY MICHAEL PHELAN.

The above-named work, the first American publication of the kind, is illustrated by 50 fine copper plate diagrams, each containing from 1 to 24 shots, from which sufficient knowledge may be acquired to enable the player to accomplish any possible stroke on the billiard table, all of which are fully explained on the pages opposite the respective plates. The work contains an invaluable and original invention, in the shape of a chart or scale of strengths necessary to be used in making each shot, of an arrangement so simple that it can be comprehended by all, and will be found of the highest importance to the novice and amateur, as every shot there delineated, has been graduated by it, and the quantity of strength necessary to be used, is given in the description annexed to each plate. It contains, also, a full and complete set of rules for the government of the game of billiards, and the various games of pool; hints to players; advice to amateurs, with a variety of explanations, interesting to all connected with billiards or billiard playing. To keepers of billiard rooms, the "Rules" are worth more than the price of the work, and the hints and advice are invaluable. Accompanying the work is a treatise on the origin, rise and progress of the game. It is also embellished with a fine steel plate frontispiece, showing a billiard table and players in position. The above work is the most complete one of the kind ever produced in any part of the world, and the only one where the theoretical science and philosophy of the game has ever been thoroughly explained.

IMPORTING, JOBBING AND RETAIL
DRY GOODS ESTABLISHMENT,

126 BOWERY, NEW-YORK.

This Institution was established about three years since, and has become the favorite resort for thousands of our citizens when in pursuit of any article of Dry Goods for household or personal use.

ITS POPULARITY HAS BEEN WON,

1st. By the particular mode of doing business adopted by the Proprietors.
2d. By the attention and civility at all times from the young men attached to the different depart'ts.
3d. By the exceeding low price at which goods are sold.

FOREIGN GOODS

Are Imported by the concern, and invoices are received by almost every steamer and packet ship. One of the partners it is expected will, after a time, remain in Europe continually to enable us to provide still better for our patrons, and to carry out more effectually our designs.

DOMESTIC GOODS

Are made to our own order, and generally on contract, and are received direct from the manufacturers. It may easily be seen that it is possible for us to offer greater inducements to purchasers than is in the power of others in the same line of trade, for our resources are greater, if our enterprise and industry is no more. By Importing we save the Importer's and Jobber's profit. By ordering from the manufacturers direct we save the profit, commission and charges of the commission merchant. These profits and charges are often very large, and being saved by our mode of doing business we can afford to reserve and allow them to our customers.

Doing Business for CASH entirely

Enables us to be in the market or in the Auction Room at any or all times for the procurement of any bargains which ready money will frequently secure.

TO BUYERS AT WHOLESALE—Country merchants. Pedlers and Families will find it to their advantage to give this concern a trial, as their interest will be subserved thereby. They can select from a larger and much better assorted stock than they can have an opportunity of doing among the exclusively wholesale dealers and can obtain goods in such quantity, be it more or less, as will prevent the necessity of accumulating too heavy a stock of any article, where assortment without large quantity is desirable. Our wholesale prices are allowed to the purchaser who buys to sell again. (or who buys heavily) whether we sell in whole or cut pieces. We require no one to purchase, but we invite all who would be dealt with on terms which must be satisfactory to call at

The Bowery Savings Store, 126 Bowery.

NEWLY INVENTED

MYRTLE SHAVING SOAP,

Manufactory, 55 Frankfort-street, New-York.

A CARD.—Since my invention of the Walnut Oil Shaving Soap, the country teems with impudent men imitating my article, some using my name. The dealer who needs the article should guard against such frauds. In order to surpass, and even to crush the sale of the Walnut Oil Scap, I have invented a new article called the MYRTLE SHAVING SOAP, which needs but a trial to guarantee its success. Only one respectable house wanted to sell my article in each town or city. As my business is that alone of manufacturer, I can produce and sell goods cheaper than any other house in the United States. And all the varieties of ordinary and choice FANCY SOAPS, to which the attention of one good house in each town is especially solicited.

DR. S. B. SMITH'S

TORPEDO ELECTRO-MAGNETIC MACHINES.—These machines differ from all other Electro-Magnetic machines. The Inventor has made an improvement, by which the primary and secondary currents are united. The cures performed by this instrument now are, in some instances, almost incredible. For the proof of this I refer to my new work, just issued from the press under the title of "The medical application of Electro-Magnetism." Mail edition, price 25 cents, bound in figured muslin, 37 1-2 cents. The Torpedo Magnetic machines are put up in neat Rosewood Cases, of a very portable size, price $12. To Agents they are put up at $9. Postmasters, Druggists, Storekeepers and all who are willing to be instrumental in relieving the sick, are respectfully invited to act as Agents.

They can be sent by Express to any part of the Union. Remittances for a single machine may be sent by mail at my risk. When several are ordered, a draft or check of deposit should be sent. All letters to be post paid. I would respectfully inform the public that my Operating Rooms are open daily for applying the Electro-Magnetic Machine to the sick. Those who prefer it can send the pay to either of the Express Offices in Wall-street, who will procure the machine of me for them, and forward it on.
